What is the specific amount of entries that you require for the date to not be extended?

Enough so that a 10 second paint work can't win. Need to be so that I don't have to pick winners just because there are no other to choose from. Good luck.

This could be a signature, banner or just a cool logo. The blue outline is 75% transparent so the amount you can see it greatly changes depending on the background.

PriorityNew - October 16, 2016, 5:08 pm

Thought i'd try a wallpaper that kinda keeps a professional feel.

Sometimes I stay home from school so I don't have to see your ugly face. Love you, great art.

Omni is a very beautiful man indeed, but I do not believe that this is something that anyone can wear / use.

Cool and creative entries so far, good luck.

Arrow: Your wallpaper and signature is something that meets all the criteria. It is something hackforums related and it is something that anyone can wear/use. It is clean and simple.

Arryn: Your signature/banner is something that meets all the criteria. It is something hackforums related and it is something that anyone can wear/use. I like that you used the background of the forum and kinds blurred out the sides to give it a cool look, the signature is on a forever loop as well, which is great!

It was difficult to decide which one of you two would get the first place, but considering that Arrow made a wallpaper and a signature, really had to do it.

If you did not win and wonder why, it might be because you watermarked your work, which then makes it not meet all criterias, or it might was not something hackforums related.
