Next: Kaichou wa Maid-sama!

I didn't watch Clannad: After Story yet but it'll come, soon. I used to like watching like Anime series, but now I cannot watch more than 25-26 of the same serie without taking a break, so I'm hoping through a couple of Romance, Shoujo, School ones before I get back to it. It looks promising and it'll also be a good watch that will succeed Ookami Shoujo to Kuro Ouji which I just finished.

I really liked that one, character development is solid. I would definitely recommend this anime to anyone. Solid watch :)

I love the manga. It's one of my favorite reads of all time.

It is a very promising anime I mean there are parts that will annoy you, but they add to the story so it's all good

Yes, very good show with a good manga as well. Kinda really wanted a second season.

Yet another excellent shoujo, romance, highschool Anime ? I'll probably be reading the Manga (starting from the end of the Anime) this week as well.
