How long did it take you to get good at zulrah? Literally have tried with 90+ range/def/mage and pretty good gear and still failed.

i learn phase by phase..

first i wanted the mage phase in my head so i kept doing it till i get the mage phase for 25 kills.
when i was decent at that i switched over to another phase.

if u wanna choise your own phase just switch worlds after u see it isnt the phase u want, it will leave the zulrah room and spawn u outside in a diffrent world.

also the first day i tried zulrah i got 30 kills. isnt bad as i had 85 mage and range, but i had mad fun.
(lost money tho cuz teles)

I've got both of those in RS3. Zulrah is a OSRS boss though, isn't it?

I've never played OSRS before. lol. Although it looks highly profitable to PVM Zulrah.
