Thread: [iCloud Removal Service iPad, iPod 100% FAST!](#)

**STPhoneUnlocks** - October 15, 2016, 10:26 pm

I am doing an iCloud Removal service. Read below for more info.

Lost/stolen compatible: Yes

Supported Models: Macbook, iMac, iPad(Wi-Fi ONLY), iPod and iWatch.

Not supported: iPad that take Sim Card. (iPad GSM) and iPhones.

If you submit any of the two, there will be NO REFUND.

Success rate 100% (If not, you will be refunded!)

Please make sure the Serial number is correct before submitting!

No refunds for incorrect serials!

iDevices that have access to the device while iCloud/FindMyiPad/Pod is activated have to restore to the activation lock screen before buying

(This is a very important step).

To restore, use the recovery mode method. You can find these on YouTube.

No warranty if it re-locks because of your mistake. (After you get through the activation lock, add your own iCloud account to save yourself from the iDevice re-locking).

Read e-mail after purchasing for further instructions

There are two services for this.

One that is Express (1-60 minutes). If there are any delays (rarely) then up to 2 hours.

Another one that is Slow (1-6 Hours). If there are any delays (rarely) then up to 12.

No weekend processing.

[Express \\$20 BTC/PP](#)

[Slow \\$15 BTC/PP](#)
