Thread: [Selling Preloaded Mercari Accounts, lots of denominations!](#)

diesel - October 18, 2016, 3:05 pm

Back with another Mercari credit thread, this time better than ever!

F.A.Q

1) What is mercari?

Mercari is a marketplace very similar to ebay where users buy/sell items and leave feedback.

2) What is this service?

This service provides you a preloaded mercari account with credits, which can be used to buy anything on the marketplace.

The optimal strategy which can be used with these preloaded accounts is as follows

Requirements

- 1) Your own mercari account
- 2) Preloaded account with credits
- 3) Patience and a brain

Steps

- 1.) Find a seller of an item you wish to purchase
- 2.) Contact the seller with your own account, tell them you'll buy their item only if they're able to ship it out ASAP (within hours)
- 3.) Once you come to an agreement, simply login to the preloaded account, and make the purchase, hopefully the seller makes good on his word and ships the item out very quickly.

My partners have been using this method for a while and have been having 95%+ success rate.....

Refunds

If you use the above method and STILL are not able to receive your item (very unlikely, if you chose a good seller), then i will provide another account.

Prices (in USD)

100 Credit Account - 40 BTC

300 Credit Account - 110 BTC

600 Credit Account - 200 BTC

1000 Credit Account - 300 BTC

What are the chances of these orders getting canceled? Its the only think that is holding me back. Imk and i may buy

Rajjhajj - October 18, 2016, 3:13 pm

are you going to be selling this method?

Shoelaces - October 18, 2016, 3:25 pm

I dont understand how tf do you know if the shit is fake or not. Like I wanna buy shit on there but idk if its fake :/

Carlo - October 18, 2016, 3:32 pm

I can Vouch for diesiel,

I have purchased credits from him in the past, clearly if you take a smart approach like he is saying here you can have the item shipped out and it will not matter what happens to the account he sends you!

Follow his instructions and you shouldn't have any problems.

I have received many items using this, it works!

Will PM you soon for more.

Moeseph - October 18, 2016, 4:10 pm

You're not responding to PM's. Shouldn't you be fixing previous orders before taking on new ones?

My Names Dak - October 18, 2016, 7:13 pm

Just want to note that my account did get banned, but my item is in transit.

Therm?l - October 18, 2016, 7:20 pm

My account was banned but my item shipped, this is very risky but it works!

Billie Joe - October 18, 2016, 7:51 pm

this guy keeps starting new threads

he gave me credits as a vouch and they got me banned

virulence - October 18, 2016, 7:55 pm

Respond to the many people who had their accounts banned using the mercari credits you provided.

Got this email.today

It has become clear to us that you have abused our invite code system. You have either created multiple accounts, or you have falsely claimed to others the value of an invite code.

We prohibit this action, as it is clearly an act of fraud.

We have revoked your user privileges, completed or cancelled any open transactions made solely with Mercari Credit, and removed Balance as compensation.

This is in the best interest of all Mercari users, as we strive to remain a safe and friendly community.

Best,
Team Mercari

You said you'd refund if they dont ship my items out. all my orders were cancelled and I got this email

I've gotten a shit load of things.

Im more annoyed cause he doesn't respond to messages.

mistymystery - October 19, 2016, 4:07 pm

Any updates on the credits ?

Silent - October 19, 2016, 4:30 pm

I've done this with NIRO NOT THIS USER and it worked.

As long as we use a middleman, and funds released after item shipped and shipping scan, Ill deal with you.
