Yes, you are doing a great job! ?

You're really doing good so far. If you don't mind I'd like to ask a few questions.

1. How much did you invest (approx)
2. Do you use your own service for CPA as well (using bots to get traffic / leads)
3. Do you use only CPA or PPI as well (PPI = pay per install, like OGAds for mobile leads)
4. Are you doing white-hat or black-hat niches? (or grey-hat perhaps)
5. Can you get any more luckier hahaha ?

Anyway, you got my compliments & respect for being a legit CPA marketer!

Sorry I didn't know it wasn't allowed to ask similar questions on several threads, so I can learn from it & earn more, but most important, to keep it in mind for future projects.

Can I ask you why do you even care?

Is it your bragging thread? Is it you who earned this money? Is it you who should reply to my questions?

You blocked me "The member Rod\$ has you on their ignore list.", so don't harass me with LQ questions if it doesn't contribute anything.

Thank you ?

You call me a "well known bragging section rat"?

Even though the majority of the members know me as a "well known e-whoring member/mentor"?

I didn't know it wasn't allowed to ask the same question over and over again, to multiple members, until I gathered enough information to improve my potential projects related to CPA...

You act like you know it all. "I shall questimate with my exprience" (instead of: I guess it's 100% ROI.") ? That's what I see as "cocky" and "arrogance" behaviour.

Just my opinion though.

I worked with CPA even before you heard from it. I was related to affiliate marketing and CPA marketing even before I signed up on this site.

Sorry to say this, but all you do is reply "HQ" comments on CPA related threads which indicates how "smart" you are and "how much knowledge" you got about CPA... while you flame me for asking questions / doing research?

Yes, doing research is also questioning the same questions over and over again until you got 1 final piece of perfect information.

If you'd like to flame me for being a "well known bragging section rat", please unblock me & PM me.

Don't be childish and flame me over a thread, just PM me what bothers you. Thank you ?

@OP:

You're doing incredible good!

If you ever want to check out my "YouTube ranking ebook" (100% free), feel free to PM me.

I used that method to rank my videos with and it's, so far, pretty popular among the members here who use CPA for income.

I hope I can help you expand your earnings even more, if not, you're still doing good enough to make a nice living soon! ??

Essence - November 16, 2016, 3:07 pm

Jesus man, I am taking an Accounting class in highschool right now and we had a CPA come in and he said he makes a shit ton of money and only works like 7 months out of the year.

He says though from January to like April he works 12-14 hours a day because so many people are turning in their taxes and shit.

EDIT:

I do not think you are talking about a Certified Public Accountant. LOL

Earth-616 - November 16, 2016, 3:26 pm

What website are you using. I'm confused on how you can make 24k in one month. I hope you know you possess a very high level of intelligence. Dumb assess don't make that much and don't get lucky. No matter the Niches they find you have to be smart to execute a plan and make 24k in a month. Fuck 24k in a year.

Rod\$ - November 17, 2016, 3:32 am

Guys the hardest part of cpa is actually launching a campaign!

You need to launch to learn the best

Pick an offer, spy on a landing page, steal 3 landers, edit out the hyperlink with your url, test 3 ads, split test the 3 landers, test 3 offers too and cut the ones that do bad.

you gotta be willing to drop a few hundred testing

True. I have wasted more then \$800 in split testing before but I had run a huge botshop before and its help me lot to monetize the traffic as i want.

1- Pick an offer

2- Think whats appealing in your offer

3- Pick traffic source

4- Get 3 banners and 3 Landers for testing

5- Run small traffic at first and figure out which lander or banner is working for you.

6- Setup volumm or CPV lab to Get the traffic source ID , age, gender, location which is converting good for you.

You need to do lot of working at stating in any campaign then it can be profitable for you.

Edit : To be honest CPA or affiliate marketing is not worth for you if you have couple of hundreds in your pocket. Wear fireproof clothes before you play to fire otherwise you will be get burned at end. I had only one month experience in CPA marketing but my traffic scene was helped me alot to understand this shits alot.

Excuse me for my english its get more worst in these days. ?
