LanEgo - October 19, 2016, 11:24 am

This is not my tool nor sales thread! I am sharing this to help those who do vcw.

You know it is a lot of hustle to repeat all those scripts again and again,type again n again!!!

I am sharing this nice tool , Although it is \$5 in price but it will automate your typing also you can use free trail before payment :)

Features :

1 Click short key for auto typing.

Runs in background.

Auto enter.

Special Keys.

Along with this auto typer comes auto clicker as well which will also help you a lot . both for \$5

Can't post the link !
