Thread: [\[ALL Members\] Free Facebook Auto Group/Page poster](#)

Hello members and fans of spamming :D

I bought a valid script years ago, i have made a website with script that allows you to post to ANY group, ANY page automaticly, just keep your tab on and it will post your text/image/url to all groups.

Here is the link: <http://clipomania.me/autopost/>

No more manually approving, just register. It is Mobile friendly, can easy post from phone/tablets

Don't spam, you can be blocked by FB, make a 20-30sec delay and don't spam to milions of groups, because, you will get banned too.

This is not a scam, [this is the real script](#).

You can add all your groups just from file and post to closed/secret groups.

You can register from fake account just to test, and if am not allowed to share this, please warn me here, i will delete my post and thread. I can't see anywhere that this is forbidden.

Thanks to all, have fun guys.
