Thread: [\[\\$200+ / Day\] eCommerce Mentorship Program - Start your OWN shop today!](#)

Tsunfire - October 22, 2016, 2:53 pm

Due to some recent relative success in the market and several people reaching out to me for more details, I thought I might take the time to share some of my knowledge.

As of late, I've been pulling away from dropshipping and will be reaching out to wholesalers for bulk purchases in order to optimize my return on interest. This process takes a notable amount of time to achieve as it is necessary for me to obtain a resellers certificate to officially partner with these wholesalers. If this is something you're intrigued with, this is definitely something I can assist you with. One thing you must know before even bothering to contact me is that I will not give you the perfect niche or product, there is no such thing. This leads to my next point:

Requirements:

- > A niche in mind. I will not think for you, but I can most certainly help you brainstorm. Do not just go with the majority.
- > A relatively decent amount of additional investments to cover startup costs (eCommerce platform, domain and hosting, and the product/service)
- > Patience. I did not simply start earning within the first week or second week, so make up your mind. Are you patient enough to endure the initial struggles of establishing your social media presence and think creatively if you run into road bumps?

Includes, but not limited to:

- > Establish a barebones for your site (Product, Pricing, Site Layout)
- > Determine the best, most optimal means of acquiring products based on funds
- > Make necessary CSS or HTML or Liquid adjustments to optimize your shop
- > Suggest applications to boost your potential for your first sales
- > Help you reach out to suppliers or wholesalers to sell quality and authentic products for the best returns
- > Tailor your audience appropriately in order to get the most quality conversions at the lowest cost
- > Suggest advertisement outlets for quality traffic necessary to increase conversion rates
- > Provide access pass into my Shopify Partner panel for 24/7 monitoring
- > Most importantly, I will guide you throughout the process until you receive your first sale and prop you up for sustainable future success

Price:

- > \$300.00 BTC

Message me if you would like to receive a quote on the amount of money needed in order to successfully start up your shop and start earning. On the same note, if you want to see my personal storefront message me as well.

Earnings for past 30 days, this week sorting out business registration (state resellers certificate) and first 14 days under construction:

Contact me through private messages, discord, or message me for Skype.

Note: You will need to have a niche in mind.

Current students: 2 vouch students and 1 official student.

Thanks for your opinion. Earnings proof has not been updated and I am most likely the only mentor that has experience in buying directly from wholesalers and redirecting packages manually. Dropshipping isn't always the way to go.

You are not the "only" one lol.

Indeed, dropshipping is not the only way. True that ?

Zuse - December 1, 2016, 7:36 pm

If I had the \$300 I'd probably go with this. You seem like a smart guy and your thread doesn't wreek of ebook bullshit, you seem like you actually care and know what you're talking about, GLWS.

In terms of the eBooks and mentors out there on the site, possibly? I'm sorry for the poor word choice.

Many people feel limited to dropshipping, which is why I believe the service I'm offering is unique in that regard.
