Thread: [DroidJack Clean Cracked Version\(Help app function\)](#)

m_stylish_m1 - October 23, 2016, 8:38 am

Hi,

I have clean version of Droidjack Tested on Virus total

Installed and Configured it correctly and tested it work for me

Explanation,

Work for me Mean:

It give access to android device.

issue: while it take to much time for process and advice a msg to wait for process till that victim device disappear from rat . in short still i couldn't get output result to the function of rat like webcam whatsapp message toast etc that is present inside the droid jack rat.as i said it take time and just remain on waiting process.

Help

any one having experience with droid jack reply to post me that DroidJack is working fine for them or they also have same Problem?

if any one having experience please just check my crack version than reply me that is it fine or not i can provide crack version

Buddy Droidjack works but it is not a free rat you have to pay for it.

Not sure where you got free one from! Ig it will not work

It's most likely because it's cracked or your connection to the client isn't strong enough.

If you're using a VPN then try to change the DNS to something closer to the clients location.
