Thread: [iPhone 7 "Device Can Not Make In-App Purchases"](#)

Thornzzz - *October 23, 2016, 3:08 pm*

I put \$10 on my Apple account via gift card, yet when I go to make purchases in game, it says "Device not allowed to make in-app purchases". I've checked my restrictions and it's allowed. Can someone help me? Thanks.

Restart your device and re-login please.

I would do a hard reset on your device (hold home & power for about 15 seconds) and then go to settings>Itunes & App store, sign out of your apple ID and then sign back in, see if that works. If it doesn't work from there I would make sure that all of your billing info is correct and up to date. I know that you're trying to make the purchase with a giftcard but you will still to have a valid credit/debit card attached to your itunes account. Hope you get it sorted out bro.
