Thread: [\[REQ\] Window banner for car \[WILL BE PUTTING IT ON MY CAR\]](#)

Sharjah - October 23, 2016, 3:54 pm

Need a window banner made for a car that has a background and text.

Must say

"SUICIDE Z"

And for the S, I want it to be like that flash s if that makes sense? Like a backwards Z kinda.

As for colors, I want it to be dark. Feel free to add a graphic as well.

No set size, but here are examples:

The graphic will be put on my car along with other friends who drive Z's. I will post up a picture afterwards ?

Most likely you'll want an oversized design so you can just trim to fit.

Maybe 60" x 10", or you can measure wxh and provide the measurements.

These are some good examples as well: <https://imgur.com/a/Xo64x>

I don't exactly know what you mean by the "flash s"

Link doesn't seem to be working, but something like:

\

It's not 100% like that, but it should open up the image a little bit more
