Thread: [\[TUT\] How to scan and exploit website vulnerabilities. \(Noobs can too\)](#)

pahapoika91 - October 24, 2016, 10:41 am

Hey! ?

In this tutorial i will be teaching you to scan and exploit sites.

First you need computer running Linux or phone running kali nethunter.

Then open command shell

First type: cd root

Type: git clone https :// github(dot)com/1N3/Sn1per.git

Then type cd Sn1per

And chmod +x install.sh

Lastly ./install.sh

Now it will install necessary files.

Then reopen the terminal.

And type cd /root

cd Sn1per

Then sniper website.com or ip.

Now it will try to autopwn the ip or website. It will probably take awhile. But it involves almost every tool.

Thanks.

Flaws. - October 24, 2016, 10:46 am

Nice tutorial here, this will help out a lot of people :)

TheSploit - October 24, 2016, 2:29 pm

Thanks for the tut will try it out.

S131 - October 24, 2016, 2:30 pm

I will give it a try seems worth the attention

matt - October 24, 2016, 3:10 pm

Try using the Code [code] tags to make this more readable

kamrulahsan06 - October 29, 2016, 11:21 am

thank you. will try soon ?

ceom123 - October 29, 2016, 2:24 pm

bro,thank you. i will try it.

dewoo - November 30, 2016, 7:36 am

Can that tool work with list ip or list??if i have list with site which me need attack tools take in order all ip or site

Viiikinki - November 30, 2016, 10:43 am

It works with IP. You can use it to scan computers/servers toi.

Dont know about list tho.

Codestroy - December 21, 2016, 2:36 pm

It works thanks bro!??

SchwererGustav - December 22, 2016, 3:50 am

thanks dude ,although i prefer accunetix and the manual way ,but i ve tried ur tool and working like charm on sql vulnerable websites

Anonymous Traveler - June 3, 2023, 10:21 pm

How does it work? is it a scanner like Burpsuite or OWASP?

borealfoil409 - June 7, 2023, 9:30 am

Sn1per is very legit learned about it in college for Security+ glad to see a tutorial about it.

HaraLTH235 - June 29, 2023, 6:44 am

Very interesting, thanks for that

Messi06 - June 30, 2023, 1:36 am

Good job thanks for that

naturewizard69 - June 30, 2023, 2:45 pm

Works like a charm. ?

Pr0-K4te - June 30, 2023, 2:48 pm
