As for some more solid evidence,
What about how he blatantly lied in a report over \$7?
Look how he states his skype, then he claims it's an impostor.

Mr. Robot - October 26, 2016, 5:08 am

random person actually joined our discord a few days back and said he was going to exit scam, we couldn't prove it was him in discord even though he went by the username "random person the great" and we caught him reading a thread we sent - he just said he was on teamspeak and he sent it to random person.

We would have made a community alert but because he trolls so often and because we couldn't prove it was him on Hackforums, we didn't want to give him attention - as he's an attention whore. I ended up just banning him from our channel but still this is disgusting to see.

<https://hackforums.net/member.php?action=profile&uid=2715954>

This user (Zeroxal) is legit, nothing to say about this.

Points made from what I said:

- 1 member that got scammed is multi
- 3 members that got scammed have really low posts count and this could mean that random person probably thought he wouldn't get reported
if he scammed regular members with low post count. The last report on him is from an UB3R, so random person tried to get bigger as he scammed more it seems
- In all of the screenshots from the 3 regs, they use imgur. The font, resolution is the same for all 3 with skype. Chique and Kingcupa69 have the same for all the SS, and they all have the same time zone in skype

(Not saying he is the friend) But are you talking about R I Y U?

<https://hackforums.net/reputation.php?uid=3297669>

R I Y U repped him the day he registered & uhhdrew vouched on R I Y U's sale thread 1 day after his registration.

Also people should remember that:

"Hackforums will not be held responsible for deals made by members."

- Help doc

You won't get your money back.

"The Scam Reports section is designed to alert other members of scammers. It also can serve to help resolve an issue between members. We can't get your money back or force a member to complete a deal. Do not PM staff. Our staff on occasion will ban a scammer, if the evidence is on site and apparent."
