Thread: [Need help gaining acces to site admin.](#)

mrdaarbak - *October 25, 2016, 10:29 am*

Hello.

I'm a newbe in this expertise. I have a site i would like to gain acces to and i have tracked down the admin log in page. But need help from there, as i haven't had succes following the tutorials on my own. As i said i'm a big newbe.

Anyone willing to be my mentor or helping me?.
Write a comment or send a PM.

Thank you.

If this is the wrong forum to post this, admin can delete it.

EDIT: Since i haven't had 25 quality posts i can't respond over pm

Yes you are huge noob.

You dont want to go loud.

Scan the website and then if you found vulnerability break to site through that hole.

Before hacking learn how websites work.

Tell the site. We can maybe help u?
