Thread: [Something has to be done about HF's most repped member...](#)

dylanups - October 25, 2016, 3:59 pm

I've been lurking around the Marketplace lately, and I think it's insane that HF is allowing Black Shadow, this site's most repped member, to continue lying, manipulating and scamming members here.

Every couple of months he does something to take advantage of members here, and he uses his reputation to influence unsuspecting users into falling for his bullshit. Once people start catching on, he creates a sob story, saying he was influenced by drugs, that he has a gambling addiction, that <enter family member here> is sick and needed the money urgently. He'll try to appeal to people's sensitivity to bail himself out of the mess he creates. Every couple of months things go full circle and he starts over taking advantage of users.

I took a long break here for a while, but since I've been browsing again, I've seen the following happen.

1. He sells a non-working gambling method to dozens of users. After being called out for misleading and essentially scamming these users, he makes false promise after false promise to "fix" what can not be fixed, in order to milk as much money as possible. Once the stream of money slows too much, he creates a sob story (<https://hackforums.net/showthread.php?tid=5344501>) trying to salvage himself, and justify all the money he has stolen.

2. This ones my favorite.

He sells a blatantly illegal (Blackhat) method of committing fraud against eBay users. When a member here buys this and realizes the method is illegal and breaks multiple site rules, he requests a refund immediately and reveals to the forum that this method breaks multiple site rules. As usual, Black Shadow junks the offending thread after making his quick dollar, and goes into salvage my reputation mode. Black Shadow promises a refund multiple times, but keep delaying the promised refund dates, making up story after story as to why he can't send the refund yet. Currently he's claiming he is away from home tending to his wife who has been suddenly hispitalized, and does not have access to his BTC, yet his IP has not changed at all. All the while, Black Shadow continues doing currency exchanges on site, and continues to gamble off site. He is blatantly lying here. This is Black Shadow's gambling account, he has claimed ownership of it in numerous HF Threads:

<https://www.bustabit.com/user/RandomBet>

He is unable to pay back the BTC he owes to multiple people, but is still able to exchange on site and literally throw away hundreds of dollars worth of BTC off site.

<https://hackforums.net/showthread.php?tid=5428427>

<https://hackforums.net/showthread.php?tid=5443552>

ANY OTHER MEMBER OF THIS SITE WOULD HAVE BEEN BANNED AND POSSIBLY REP FUCKED FOR SELLING THE ILLEGAL AND FRAUDULENT EBAY METHOD THAT HE WAS SELLING, YET HE'S GETTING AWAY WITH IT. He admits to it being illegal, read through tid=5428427 and you can clearly piece together that it's fraudulent and breaks site rules, yet he was able to make a thread selling it, make multiple sales, then junk the thread before it got too much attention and he gets banned.

I'm making this thread to bring all of this to attention to site mods/admins who may have not been aware that this site's most repped user is constantly taking advantage of unsuspecting members here and breaking numerous site rules, selling illegal and fraudulent products in the marketplace. Staff can view his junked threads to get any idea of what he's been trying to hide.

Please read any thread Black Shadow makes. The community, at least the active members here, have all turned against him. They know his tricks, they know that he continues to lie and scam. Unfortunately, these are the only members who are safe. The inactive and new members are prime targets for Black Shadow to victimize. Read his threads, you'll get an idea of what the majority of us already know, that Black Shadow is dangerous and needs to be put in check.

I hope actions like these are not allowed to continue, as Black Shadow can and most certainly will, continue to take advantage of people who only see his high rep, not the loads of shit that he's hiding behind it.

I think this user has serious gambling problems, and he def needs some help.

146918496 - October 25, 2016, 4:01 pm

Just give him a while to sort everything out,

Stop jumping on him and give him time to fix it.

Some of you don't even know him and aren't associated with him,

But constantly insist on making posts like: "He is addicted to bustabit, typical",

And it brings a constant influx of bullshit to all the threads and the forum as a whole.

Let him get his shit together.

It's been weeks dude. He's has time to throw away \$500+ on BustaBit but no time to repay those that he owes. His gambling addiction and lies are a risk to members here.

Deathy - October 25, 2016, 4:05 pm

I agree with you, but I don't think these threads are allowed.

DoubleClickBTC - October 25, 2016, 4:06 pm

Someone wanted thread with lots of replies i see, interesting.

Lowkey

Spoiler ([Click to View](#)) For all you know BlackShadow could have shares in HF. He has had the opportunity to buy it and said no but you never know what other agreement went down

Doxicity - October 25, 2016, 4:07 pm

10/10 would read again

I miss the old Jesus loving black shadow who posted spooky Halloween pictures.
Please ban and RKO.

And damn definitely a username i haven't seen in a long time.

FiftyTwo - October 25, 2016, 4:10 pm

Posting here to follow on with this thread.

minimalist - October 25, 2016, 4:10 pm

I haven't read much of your thread but I do generally agree with it. Just wanted to disprove this point though:

I know a few users who've been selling bullshit methods and have been the subject of many community alerts. Many. Nothing is done about them because staff don't get involved in dealings between members. I also don't believe that Black Shadow's stated implicitly or explicitly that he sold a fraudulent method.

But yeah. He's selling bullshit and playing bullshit games behind the veil of trust that is his 5k rep. I doubt that anything will be done though...but if he gets closed, then by jolly, it'll be a Halloween miracle.

DoubleClickBTC - October 25, 2016, 4:12 pm

Everytime i refresh this thread theres a new reply.

Time to get the popcorn

I like Blackshadow tho

J?son - October 25, 2016, 4:13 pm

Vouch for this ebook, 10/10 would recommend

Grim - October 25, 2016, 4:13 pm

Shouldn't this be a community alert? dont think this section is for these types of threads. Side note though i do agree with you and think alot of people are tired of his nonsense on this forum.

Ja.son - October 25, 2016, 4:14 pm

BAN HIM

Easy. He obviously know's Omni well enough.

Now a days, it's not what you know, it's who you know! ;)

HIGH PAID FELLA - *October 25, 2016, 4:15 pm*

You're all seeing it from the wrong perspective, we should help him by crowdfunding the needed funds to have a pleasurable but LAST encounter with Bustabit. See it as his last meal as he's leaving the cage he is in!!!

The cage prevented us from seeing shadow, there was no light, but now we have to bring him light, NO! THE LIGHT. There is hope, there is light at the end of the tunnel...

May it work in his best interest. Amen.

I only want the green apple award seeing as only 2 people have higher rep than me that have the award :/

All jokes aside, Black Shadow is a cool dude, don't be jealous of his rep. Sure he's a dick sometimes but it's whatever right?

#Skyline - *October 25, 2016, 4:18 pm*

Think I'm gonna post here to see how this turns out.

That doesn't change the fact he's wronged people on more than one occasion.

Staff don't get involved with scam reports, neither does Omniscient.

Although, there have been some forum-wide cases that have ended up in closures.

Black Shadow - October 25, 2016, 4:22 pm

Really is no need for this, let me explain.

The first scam report the member said it was fraud and it clearly wasn't it was a grayhat method and he demanded his cash back 2 hours later.

I had since spent the btc he gave me and was saving up to pay him back to get rid of the scam report even though I should not as the method was legit.

The second scam report was made because...

The member sent me his btc I tried to pay him but pp would not let me I told him this and he said sort it out later, it didn't get sorted so I was about to send his btc back but he never came back on for a day.

It was the weekend and I had to go away I am back now and have the cash for him as soon as he comes on.

It's not the scam report that they need to get involved in then. It's the fact that he's selling blatantly illegal methods that infringe on site rules.

The method is defrauding eBay users.

You completed multiple Bitcoin and PP related transactions since scamming him, as well as losing

0.2-0.4 BTC gambling in this time frame. You had plenty of opportunities to stop gambling and pay the affected user, but you strung him along for a week so you could continue gambling.

It's become worse in the recent months. He's always been a liar and attention whore, and that's perfectly fine.

But now he's addicted to gambling, and since developing this addiction, he has ripped many users off for funds. Either through scamming, breaking site rules and selling illegal/fraudulent methods, or by selling non-working products then claiming his gambling addiction has led to him selling non-working products as he needed money to feed his addiction.

Old Black Shadow was a pain in the ass, but not dangerous to users here.

Current Black Shadow is a risk to anyone unaware of his ways.
