99% you wont get caught
Fully undetectable but at the same time you have a 99% chance of not being caught. So it's not fully undetectable? Give someone 1 vouch copy and let them do a review.

Shoelaces - November 9, 2016, 8:10 pm

I have recieved a vouch copy of this and am not affiliated with the OP in anyway.

This ebook is a short and simple to the point guide. It consists of very minimal steps but will definitely work and could easily be worth the \$2 so you don't get caught. Like I said this is a short guide so there is not any spelling mistakes and its easy to read/understand. Overall if you have the extra \$2 this could definitely be worth it so you don't get caught and lose your weed/get arrested.
GLWS ?

I'll take a vouch copy to be your second actual vouch/review.

I got a vouch copy of this method and can say as a weed smoker this will work. It's a pretty "known" method, I've heard about it before at least. OP should also state in the post that this is for up to 5 Grams. Vouch though!

FRI?DBAO™ - December 20, 2016, 2:57 pm
