After ordering, my vps is ready and active in matter of minutes. Speed is absolute decent. Service is perfect as described. For \$15, I doubt there is anyone can provide you such vps with good spec. Thank you for your fast service. You just got yourself a regular monthly subscriber. Looking forward to deal with you more.

Thank you.

crystal_shadow - November 11, 2016, 9:16 pm

Haven't got any reply from you. My VPS got disconnected, you asked to resolve it by replying your message in PM, which I did but no response. Please fix this issue asap.

Note to all: It was some 4k scans log which i have no idea. Nothing "Network abusing" was going on in VPS.
