What the hell is this?

Spoiler ([Click to View](#))Fiverr Method for bank.

1. Analyze what niches are most wanted on fiverr.
2. Research the niches that are the most wanted on fiverr.
3. After youve done an analyze and research. [Brainstorm] important step
4. When you make a gig on fiverr, make sure that you use right keywords and tags so people find your work [important].
5. Make a good design to your gig, its all about internacional design. [Make ur product look hot with photoshop, make a good picture with [attracting text].
6. Make sure to repeat step 3 and 5.
7. Make plenty of gigs and try what works best.
8. Analyze what gigs sold best and got most views. And create more gigs based on this.
9. Example [When i started with fiverr, i looked at the instagram, facebook, twitter market and saw a huge potential there, so i found resellers that sold instagram followers etc and used this to my advantage, example i bought 1000 / followers / likes for 1 [USD cheap] and sold them for 5-10 USD
