Welcome to [andrewfrost](#)'s exchange thread!

I buy all your BTC with PayPal @ 15% rate.

Current stock (11/11/2016): 700\$

I have a daily stock of at least 800\$+ that I'm looking to get exchanged into BTC at a 15% rate. Payments will be coming from both verified and unverified PayPal accounts.

Minimum exchange is for 150\$ and we will use the preev rate.
