Thread: [Manga like KNIM\(Kimi no Iru Machi\) or Nozoki Ana?](#)

Chad ThunderCock - October 28, 2016, 9:34 am

What title says, just finished KNIM and absolutely loved it.

Only read spoiler if you've read KNIM before.

Spoiler ([Click to View](#)) the first 150 chapters were sooo filled with drama and MC was so damn indecisive and female MC was retarded with the whole bike-kun NTR arc, she loves him for years and suddenly when he tells her he loved her she just starts dating another guy and actually loves him.

However the last 100 chapters were completely amazing when they get back together, so heart warming, absolutely loved their relationship.

Plus MC's relationship with Akari and Takashi was soo awesome too.

Now I've got PADS ;_;

ankitkhosya - October 28, 2016, 11:10 am

well , you are too late on this bandwagon , "Kimi no iru machi" were a thing on mal, when it got completed , everyone was posting about it like crazy .just posted this for a bit of waste knowledge.

I fucking loved the manga man, yeah i agree that yuzuki character was a bitch at times but the plot and harem made it all good.

if you seen the anime , do you think it was had such a horrible ending as compared to manga cause in anime , it seemed like they came together and everything was happily ever after while in manga , the read development starts right after that with all cute moments happening and managing the work-relationship thing.

Rin was hot too , just saying you know. ?

adding the last point , asuka , that girl suffered too much for the MC .

Nozoki Ana is probably my 2nd all time favorite Manga. I looked for a lot of Manga close to it and this is what I came across that was decent:

Velvet Kiss (worth a read)

Unbalance X2

Aki-Sora

Honeymoon Salad

/Blush-DC: Hi?mitsu

Domestic na Kanojo (worth a read)

Nozo x Kimi (spin-off, though the translation is really late behind)

Usotsuki Paradox (worth a read)

i tried nozoxkimi after reading your reply , "damn"

It's actually quite decent, but the translation seems to have handed at Chapter 24, which sucks.

I had already seen the OVA for that a few years back, so i was quite interested in further plot, its a shame it was put off for further translation.

i would suggest reading kimi no iru machi though , its long but decent, I in college and reading these rom-Dram-coms . sometimes , just sometimes , it bothers me.

Didn't watch the anime honestly but anime tends to make things worse. Honestly, I think KNIM was great, would love to read it all over again if I could without remembering a thing :c

CorrosiveBlueberry - October 29, 2016, 1:02 pm

Kimi no Iru Machi is more romance while Nozoki Ana is ecchi / borderline hentai IIRC. (only watched the OVA, didn't read manga or anything)

Also IIRC try suzuka as it is by the same author or some shit possibly in one time as kimi no iru machi maybe . It definately gives the same vibe even though I only watched the first few episodes of Kimi no, while i watched all of Suzuka.

But as far as kimi no iru Machi goes you'd like most anime series of the romance/drama series, although im sure only some would suit your taste and others you'd dislike.

NexPB - October 29, 2016, 1:30 pm

One of my fav manga there is:

- Suzuka & Fuuka (both by the same autor of Kimimachi)
- Nana to kaoru is good recommendation for nozoki ana (nozoki ana is one of a kind for it's genre you prob won't find a replacement)

nooo. Nozoki Ana is borderline Hentai but ANYONE who has read it will tell you the same. You start it for the ecchi, you end it for the plot. There's a reason why it has a good rating, I even rated it a 10/10, and would still rate it 10/10 after I reread it a couple days ago.

Seriously, read the manga it's absolutely awesome.

Uhm.. I liked kimimachi a bit more but they have the same vibe I recommend Suzuka before Fuuka (Fuuka is still ongoing and will soon be adapted into an anime aswell)

Or if you want college setting maybe Hetakoi, oh and good ending is also good.

I've seen 1 panel from GE and yea I will definitely never read it. it was even worse than NTR

Wait, the Anime for Kimi no Iru Machi doesn't start at Chapter 1?

(Oct 30, 2016 01:54 PM)Aur? Wrote: [\[CITE\]](#) Wait, the Anime for Kimi no Iru Machi doesn't start at Chapter 1?

no... It starts when he moves to tokyo WHICH COMPLETELY DEFEATS THE POINT OF THE MANGA.

That's why I'm telling you read the manga it's 100x better and I'm not even joking.

The build up is so amazing through the story and 2 of the best characters I've ever seen (his childhood friends) are especially important during the beginning of the manga (and later on too)

Aura - October 30, 2016, 2:20 pm

Yes, I've legit considered deleting the anime from my website cause I would want people to read the manga first...

The anime skips a bunch of shit and is super rushed.

It's so addicting, I read all 270 in 2 days <.<

The characters are so well done (most of them), there are so many feels both good and bad, the

interaction between characters and their relationships are too awesome, that build up too...

Uhh suzuka & fuuka are the same author (soo you can somewhat expect the same) of kimimachi + kimimachi has a few easter eggs that references Suzuka.

You know when Haruto lives with his sister Suzuka lives actually next door to him (or under him not sure) anyways same apartment complex xD

270 chapters counting the 0.005 chapters + extras

So yea it ends at 260 :l

How would you rate it?

I felt terrible when I finished it too :c

Aura - November 6, 2016, 6:31 am

It was amazing. Honestly, I really want to put it in my Top 3, or Top 5 reads at least. I really like the fact that it's a Manga where the years pass by and you see where everyone ends up in life and such. I'm sure there isn't another one like it.

Also on MAL, why are Asahina, Suzuka and Akitsuki, Fuuka listed as characters in the Manga...? They look like they are from another serie (Suzuka and Fuuka which I'm considering reading) and I don't recall seeing them in KNIM.

No idea but I do know that Suzuka lives in the same apartment complex because there was a moment where her name showed up in the manga, they are from the same author so it was just a little fun time for old readers.

Yea, it portrays their relationship really well and I absolutely loved the relationship between MC and his childhood friends, especially towards the end, so much feels...

Bumping this cuz I actually finished Suzuka, tried reading it when this thread was going on but it was "meh" , I mean, after finishing KNIM any similar manga would feel mediocre in comparison.

I believe it lacked the relatable and amazing characters that KNIM had, as well as the romance felt off, as if there was no romance at all, the drama was hardly worth it.

7/10, hell, I preferred Fuuka over it honestly.
