I have been reading this manga since 2 months ago and I have not finished yet tho! DON NOT BLAME

Manga name: Horimiya

Charapters: 70

Status: Ongoing

I have created this post to recommended you and talk about this manga. I am a begginer in this so this would be my first manga that I have read. If you want to remmended me one feel free to do it cause I do not know a lot about this I have been seeing anime but a friend of mine told me that mangas are better.

So about this manga it is about the life of this girl called HORI she is sexy tho. So about this girl regardles that the fact she is sexy she has a life that she does not want to others know why cause at her house she has to take care of her little brother she has to do all the chores but it is when this man Miyamura appears in her life "Miyamura and her they studying in the same school and in the same classroom, but miyamura has a double life tho" and they start to hang out.

This is honestly in my Top 5. Decided to read it recently and God I just want another 70 chapters to be released tomorrow. 10/10 read, EVERYONE, no matter what your tastes are SHOULD read it. Though I admit that as the story progresses, it seems to lose a bit of it's seriousness, but still an excellent read.
