Thread: [Junk Pruning and User Post Recount](#)

Omniscient - October 28, 2016, 4:11 pm

The entire Junk section is now pruned including SST. I am in the process of having the post count of each member redone. It may take 30+ minutes to complete so don't be alarmed at a change in post count.

Thank you.

Alright :) Well hopefully I don't go down too much lmao

2 steps forward since the last purge and now 1 step back. Ah well.

Regulus - October 28, 2016, 4:12 pm

Thanks for the update.

I thankfully don't have so many posts in this section.

Are you planning to take the website offline while you do this?

Sharjah - October 28, 2016, 4:14 pm

Good thing I didn't post often in the SST section. It was retarded anyway as users always abused the services.

There goes my post count.

Trying to get to 100k Omniscient, are you trying to be a road block? -.-

I bet it takes a ridiculous amount of CPU cycles to crunch through all SST posts ;)

No, it's running the process just fine as-is.

Not really as those were already deleted before the recount.

Autist - October 28, 2016, 4:20 pm

The stresser section will still be back correct?

Deathy - *October 28, 2016, 4:21 pm*

Looks like mine have been recounted.

Thanks for the update, Omni!

No, permanently deleted and gone and won't return.
