Huge vouch for this dude, he is probably the most creative and friendliest person I had hired when it comes to GFX work. He's very convenient and flexible so don't worry about a thing when it comes to timing and such. Although we may had to do some revisions regarding to the GFX work, I still end up being happy because he was kind enough to do it unlike other GFX who might have cost extra and stuff. Great sh*t man! Good job and I hope the best.
