Thread: [New Snapchat Feature: MY EYES ONLY. PIN-protected. How to crack?](#)

DangerLizard - October 30, 2016, 8:46 am

In the new "memories" feature there's a new tab called "My Eyes Only" which requires a user-selected 4 digit PIN code. After 5 attempts it locks you out for 1 minute. Then after another attempt it's 3 minutes. Then one more and it's 10 etc. Is there any way to crack/bypass this 4 digit PIN? Thanks

Faith Connors - October 30, 2016, 8:51 am

Likely there isn't any.

There's probably no nudes in there anyway, may as well give up or don't get your hopes up.

Judging by the pictures in the unprotected section and the fact that setting up the "my eyes only" tab requires multiple steps, I'm about 65% sure there is.

I guess I may just have to have a 1 in 10,000 guess every couple of weeks.

_ahsanq - April 13, 2017, 10:44 am

I'll be following this thread as well

Beladonis - April 13, 2017, 2:00 pm

I guess a script using proxies and brute forcing the pin should do it... You need 3333 valid proxies though (9999 tries divided by 3).

Tanners654 - May 22, 2017, 6:44 pm

also interested tried many different things nothing has worked

tnt_time - May 23, 2017, 4:25 am

if you know what pin she has for her sim card or phone its likely to be the same ;)

Cohuho98 - July 8, 2017, 3:00 pm

Well another question. Is there a way to make it to where you get infinite tries without getting locked out?

Nameofuser7 - July 14, 2017, 11:52 pm

I have solved the infinite tries problem, but it's grueling.

Close the app

Open it and sign out

Close the app

Re-login

Attempts reset

Monkey type answer.

Hopefully someone can come up with a bypass, or combine this for something better. I'd like an answer for this.

FlyingBlanket11 - July 15, 2017, 12:22 am

10x10x10x10= 10,000

You would have to try a max of 10,000 fkn passwords bruh. Honestly. Is it really that worth it.

Gary - July 15, 2017, 12:25 am

For me to access it was my phone unlock PIN. If you know that persons password you could try that.

Sadly OP isn't active, but this could be useful to other people.

dark_empressblood - August 15, 2017, 8:31 am

what if you use a rando number sequencer or something lie that

idkausername1234 - August 15, 2017, 11:28 am

If you are really determined you can try all 10k combinations in like 2 weeks, but is it really worth it?
xD

Skizzzz - August 17, 2017, 7:50 pm

Damn she must b thicc af... xD

G3yb01 - August 17, 2017, 7:53 pm

Perhaps you can access the file media directly on your device, assumining they are unexrypted.

Anyone try that?

Any answer yet? Waiting for a response

xfreedom - September 18, 2017, 5:56 am

And just by searching the command `"-(bool) isPrivateGalleryUnlocked"` on google, you'll find a reddit page that gives more info and says it's been patched but you can still try to use a previous version where this works.

Anyway, you won't be able to save the pic in your gallery but you can see the thumbnails.

LilPump177 - September 21, 2017, 11:56 am

Does anyone here know how to hack into a Snapchat account?

Henry_Jimenez - January 10, 2018, 11:58 am

Yes there is, if you log out after 4 tries and then log in you get 4 more tries

I am also intrigued in this thread. If someone can manage to figure this out they will be a god among us.

iD0NTREGR3T - November 26, 2019, 6:40 am

anyone? lost to many good memories trying to hide them from my parents. my fucking high ass came up with a password I never used before... fuck

EDIT: I AM WILLING TO PAY IF SOMEONE CAN GET ALL THE SNAPS BACK. WITH OR WITHOUT THE PIN!!!

Chilled - November 28, 2019, 6:07 pm

I, too, spent quite some time researching this. Everything that I came across had been patched. This left left me with two potential methods:

1) Social engineering. This is the more difficult of the two ways, but depending on your skill level and how savvy the target is, SE can be very effective.

2) Guessing. This method generally has a >50% success rate. There's three standard options to with:

- The year of birth (ie. 1996)
- The date and month (ie. 0306)
- Common 4-digit passcodes (these can be found on Google)

anotherbackup - March 5, 2020, 8:54 pm

I figured out a method that is working with prof add my snapchat account wyatthackedss for more details and explanation on how to proceed with this method.
