Thread: [Old HackForums and New Hackforums](#)

RazDz - October 30, 2016, 10:33 am

Hello HF Users. this is suggestion and Dispraise

first when i joined hackforums i am contacted a lot smart and clever hackers. they shared a lot HQ and Useful tutorial they are like master hackers. but they are all banned and kicked out from hack forums without reason this is an archive picture to show you OLD tutorial on HF :-

[i.gyazo . com/ 76362918ee29fdb5da227c9fc7a66b26 . png](https://i.gyazo.com/76362918ee29fdb5da227c9fc7a66b26.png)

we had a lot old tutorials but we dont have a good hackers or someone who Expert on hacking. theres why HF is Not HackForums theres a lot of noob and skid member. on HF Omni Should to ban a skids and noobs.

and thanks for Sir Omni because he removed DDOS Section because ddos was changed hackers thought and made them skid. they are all used ddos for illegall stuff. and they didnt know nothing about hacking and. they just know how to ddos.

but before we got a lot of hackers and masters but they are all banned.Why ? Experts and Hackers All Banned ? should they get banned without specific Reason ? i hope omni make an ban appeals to all banned users.

and my suggestion is change ban rules. dont ban member for small reason. we have a lot of scam reports. and scammers didnt banned. but why experts and hackers got banned. but still when newbies hackers want to learn hack and they visiting hacking section we dont have useful thread we just have question and not useful thread.

see before hackforums and still hackforums. we dont have good tutorial. we need more hackers. to join hackforums. and please Omni make an ban Appeal to banned memembr and allow them to appeal ban request and tell staff and moderators to review them if the Reason banning is small reason give them anthor chance and accept them back to HF.

if the reason is Scam or attacking HF user and hacking HF users. and ddos. refuse and reject them. but please give chance to who got small ban reason.

Thanks For Staffs and Omni and readers :).

Plot twist: what if banning all the expert hackers you are talking about was just a test to see if they could hack HF and unban themselves? ?

And what do you think is going to happen now?

Who Soup - October 30, 2016, 10:40 am

I hope something significantly changes, I know Omni faces legal challenges while trying to maintain quality on here.

I'm definitely a idea person if anyone wants to brainstorm possible solutions.

They are banned for inactivity. So no-one steals that account

this is not just hackforums forum yes that is right. but they are all banned without specific reason. if theres no expert hackers we need to close hacking section because we dont have tutorial.

Accounts get closed all the time for numerous reasons, it does not make the user a multi.

Users who do not login and get closed/pruned for inactivity are welcomed to rejoin for example.

However as for the OP post.

Times change. as does the site and member basis.

As for banning "skids and noobs" however, how exactly would you determine who does and does not fall in to this classification?

Putting aside the fact I can not ever see this happening to begin with. Remember Users and posts are what keep the site alive. Be it good or bad posts it keeps the site active.

Pruning and banning members would kill the activity and reduce overall revenue towards the site.

Remember, for Omni, this is his business and job.

It would be a pretty dumb ass move on his part to kill off his own income.

Orange Kief - October 30, 2016, 10:43 am

Lmao, most likely it turns to marketplace forums and ebook forum.

Do you even read?

Quote:Do you prune members?

We do. We delete members that have not activated their accounts fairly often. We also delete 0 post members older than 2 months. So most of our member base is actually posting members.

What if I don't login for a long time?

If you're inactive your account is subject to being closed. If you've made posts the account will not be deleted. If you're not upgraded into L33t or Ub3r the account will not be recovered for any reason. Regular member accounts can be closed after 6 months inactivity. Inactive L33t and Ub3r are subject to closure after one year. The activity is based on account login. You are not required to post.

Why do you close inactive accounts?

Accounts are closed to prevent old accounts being stolen or sold then used to abuse the community.

What if my account is closed from being inactive and I want to participate at HF?

If your account closure is from inactivity you can safely rejoin HF. However you should confirm with staff via the contact form that indeed your previous account was closed from inactivity. If before your closure you were banned it's likely we've closed your account for other reasons. Source:

Watch what you say he'll "hack" you

In?sane? - *October 30, 2016, 11:38 am*

Why would he do that?

It's not really a forum only related to hacking anymore, it's just a forum for general stuff nowadays.
Clearly a good change seeing the forum does well.

If you want to get in touch with people for stuff that is not allowed here anymore I'm sure there is an alternative place to go to.
