Thread: [Vanity/Custom BTC Addresses Tutorial/Guide](#)

TheChi?f - October 30, 2016, 1:25 pm

I'm providing a simple and easy guide to generate a custom/vanity BTC address for yourself, without giving anyone else the access to your custom BTC address after its generated. This way, you can be assured that No random person will have access to your BTC address whatsoever.

To receive this guide, you can either PM me or post below. I'll get back to everyone.

If the guide isn't clear enough for you, I'll try to help you through your questions in the best possible way.

EDIT: For example, this is my vanity address: 1Chief88wsScJcuAdPN1Qi5WAYooUAezQ1 with the initial term being 1Chief
