Thread: [Get A Free Backlink From a VERY HQ Website in YOUR NICHE](#)

Ganja - October 31, 2016, 10:36 am

Do you have an english website that you want to rank in Google? Then this is your lucky day!

I currently offer a free link to your website from one of my websites. My websites have great SEO-metrics (DA/PA and TF/CF) which will help you get top-position in Google.

What do I want in return? All I want in exchange is an article. The article should be in English, handwritten and at least 500 words. Don't use a spinner to fake the article, I'll easily see if you do. I'll then publish your article on my website (like a guestblog) with your link in it.

My current websites:

Website #1 - currently not taking articles for this one

Spoiler ([Click to View](#)) This website is all about recreation and humor.

These are the metrics:

Domain Authority: 35

Trust Flow: 32

Citation Flow: 33

Topical Trustflow :

30+ Recreation / Humor

25+ Society / People

10+ Games / Puzzles

Website #2

Spoiler ([Click to View](#)) This website is all about spirituality and religion.

These are the metrics:

Domain Authority: 13

Trust Flow: 30

Citation Flow: 22

Topical Trustflow:

25+ Religion / Spirituality

Pick whichever website relates best to your niche and sent me your article!

My websites are 100% clean, have a natural backlink profile and are spam-free. I intend to keep it that way. I'll not publish low quality articles.

Telako - November 26, 2016, 11:47 am

That seems pretty legit however, I don't know much about SEO

focuss - November 27, 2016, 5:57 am

Umm... I hate to break it to you but Domain Authority of 35 is average and 13 is really low.

Here's how it works:

30-40 is average

40+ is good

50+ is Excellent
