Thread: [uid=1889911 Compromised](#)

Koopa. - October 31, 2016, 1:09 pm

[RSLH GD](#) seems to be compromised and controlled by a banned member by the name of [Larry Hoover GD](#)

Proof

(-)Similarity in names, both have "GD" in the end.

(-)Fucked trust scan.

Larry Hoover's

RSLH's

RSLH's account info was changed around the time Larry Hoover was closed.

(-) Larry Hoover's account was compromised by the same user that compromised [Speedball](#) as shown here <https://hackforums.net/showthread.php?tid=5441022&pid=52854000#pid52854000>

RAT section, CPA, and Lounge

EDIT.

User has compromised this account aswell.

not F2A- RIP to this user. i hope that he gets his account back when he returns

Koopa. - October 31, 2016, 1:10 pm

I hope this gets noticed, took me a bit to get proof.

Katarina Du Couteau - October 31, 2016, 1:10 pm

Nice detective work!

The next Mr Robot?

+1 for a clever catch. Id bite.

elterco - October 31, 2016, 3:44 pm
you're batman!! sent you some green for the good job

J?son - October 31, 2016, 3:44 pm
2FA isn't activated either. I would recommend letting Omniscient know about this.

Rezy - October 31, 2016, 11:43 pm
Pretty sure they all sold their accounts.

Koopa. - November 1, 2016, 8:17 am
Is this sufficient proof to send a pm to an admin?

BlackLayer - November 1, 2016, 1:55 pm

Proof are 90% you can send of admin they will lookup location.

Armada - December 17, 2016, 11:08 pm
Good riddance, compromised or not, that kid was bloody annoying as holy hell.

Danny Khalifa - December 17, 2016, 11:11 pm
Thank you for alerting the community mate!

Koopa. - December 20, 2016, 8:49 pm
Bumping this to the top in order to include his new account -

I recommend everyone to use 2FA always. Simple & free fix to stop this from happening :P
