Thread: [Small BustaBit Profit](#)

Was bored so I threw \$10 into my account assuming I'd lose it all, came out with \$60 after an hour.

This is the first time I've stopped gambling before I lost it all. I used to cash out my investment once I doubled and play with winnings but of course I'd lose all the winnings eventually.

It's only \$50 but hey I'm proud I could profit. ?

wow. not bad at all!

Do you have any strategy at all? Or just guessing?

Technically guessing but I factor in probability where it counts. Works for me so...

It's not really profit if you've been losing money before. And there's no such thing as being good at calling when it comes to bustabit, LMAO. How do you become good at it?

It's like I'm feeling convinced that I'm about to hit a face card on my 11, so I all in and double my money. Man that was a good call, I am good at calling when it comes to gambling.

Damn I need to stop reading these threads, It's pissing me off.
