Premium link generators for Megaupload, # , # ,# , Depositfiles etc

<http://youleech.net>

I've tried it and it does work.?

meltee - July 15, 2010, 11:45 pm

Thanks, it works for me. Getting alright speeds, I guess.

Well, nothing really can improve your speed. I just don't know why people don't get it. There's a LIMIT on your internet upload and download speed. Unless, you're uber rich. That's a different story.

Actually i've tested it with and without using download managers, there is a significant difference in download speed.
