Riyu - November 2, 2016, 6:52 pm

If you deem me worthy, I'll take a vouch copy.

Description - November 2, 2016, 6:52 pm

I'll take a vouch copy if you don't mind, thanks.

asvps - November 2, 2016, 6:55 pm

retracting my statement, please give it to someone else.

Daniel Day-Lewis - November 2, 2016, 6:57 pm

sent to all 3 of you, let me know what you think

Description - November 2, 2016, 7:04 pm

For \$4 it's worth it.

The methods that are provided is the same methods I use myself, so I can confirm they work.

Everything is clear, and I'm sure you won't regret it for \$4.

Riyu - November 2, 2016, 7:07 pm

I really don't see this working for UMG accounts. I know this from experience. For GB some of this could work but one of the methods you said would 100% not work. Also you said you were going to

provide how to secure accounts and I don't really see anything about that besides doing the usual things which will not secure the account at all.

Daniel Day-Lewis - November 2, 2016, 7:14 pm

updating it right now to clarify this, it does work with umg accounts, its actually easier to get a umg's email changed. in the past week I have sold a 300th, a 2k with over 10k earned and another 1k with 5k earned and trophies.

Academy Awards - November 2, 2016, 7:15 pm

I've read e-book after e-book. When I saw this I thought to myself, its just some bs online. But, for \$4 this is a steal! Are you kidding me?! Time and effort have been put into this and I can tell you now it works 100%. Not only does he tell you what to do, but also has lots and lots of links that will give you pointers. Very pleased with this e-book and if I were you and want to make money buy this right away. It is possible with work to make your money back. Vouch!

'Cynical - November 2, 2016, 7:16 pm

The grammar in the eBook isn't exactly great, but the content is on point. This is most definitely worth \$4, in my opinion, and it's good for anyone looking to get into doxing.

OP explains multiple concepts in a very easy-to-understand manor. Nice book.

Overall rating: 6/10. Definitely worth the \$4.

GLWS OP.

If I were you, I would proofread it.

copped off the site still haven't received it?

SIM-3341619 - November 22, 2016, 1:45 pm

what's the point of autobuy if you have to verify it anyways. dumbest thing ever

Daniel Day-Lewis - November 22, 2016, 4:53 pm

idk its the stupidest shit ever, its because my paypal got limited, i sent you the dl link in pms

DiedTG - November 29, 2016, 6:26 am

Is there a way to buy this with out owning a computer and still using it?

If so PM me and I will buy right now
