When you upgrade to Ub3r do you keep l33t?

Or does it replace l33t with ub3r?

Thanks.

Your L33T evolves into UB3R. Kind of like how Charmeleon evolves into Charizard.

You aren't technically in the l33t group anymore, no. But l33t is required for ub3r anyway.

It replaces it.

You keep the perks though

Ub3r replaced l33t, just look at their profiles.

You keep the privileges of leet but they are mostly just upgraded, e.g. Small post limit normal member -> higher for leet -> even higher with ub3r

Hope you understood

10/10 analogy. Yeah, L33T disappears/evolves.
