Kuzu no Honkai

Quote:Seventeen-year-old Mugi Awaya and Hanabi Yasuraoka appear to be the ideal couple. They are both pretty popular, and they seem to suit each other well. However, outsiders don't know of the secret they share. Both Mugi and Hanabi have hopeless crushes on someone else, and they are only dating each other to soothe their loneliness. Mugi is in love with Akane Minagawa, a young teacher who used to be his home tutor. Hanabi is also in love with a teacher, a young man who has been a family friend since she was little. In each other, they find a place where they can grieve for the ones they cannot have, and they share physical intimacy driven by loneliness. Will things stay like this for them forever?

Apparently this series will be a full adaption, considering episode one covered most of first volume and

Quote:You are going to watch some sick stuff and hate some characters. The title doesn't lie, most of them are scum.

This is a fun ride and the art is amazing... but prepare for what's coming.

this manga was boring =x= idk why they decided to make an anime of this instead of others.

This is one of my favorite anime ever; I know there is only a few episodes out but fuck is this good. I hope that the rest of it holds up as well as this is exceeding my expectations entirely.

I've really been enjoying this anime so far, and I'm planning on reading the manga. Have the first 5 volumes saved.

I decided to only watch comedy anime cause drama anime are mostly negative and show a fucked up image of the world and this anime is the prime example of that.
