Thread: [McDonald's, Dexter, and Modern Warfare Remastered](#)

Torc - November 3, 2016, 10:36 pm

Just went to McDonald's at 1:30 AM and got myself a Big Mac and two McDoubles. Yes, I know, I am fat. (not really) Watching Dexter while waiting for my game to finish downloading. Anybody play the game yet? Is it any good?

Mr Professor - November 3, 2016, 10:46 pm

I tried, but I think my friends gameshare expired /:

I can't even launch BO3 anymore.

I think he's used up his 3 gameshare's.

That sucks. I just buy everything myself so I don't have to rely on friends game shares, but I understand how not every one can do that so they like sharing games with each other.

3 screens, you ever just play porn on all 3?

I've had porn on the middle and right one at the same time before, but never on all 3 at once. The left one is hooked up to my Xbox/PS4, so I never really have it hooked up to my PC.

Living the dream mate?Enjoy mate
You need to upgrade your Lcd lol

HFTetramorph - November 3, 2016, 11:01 pm

To be honestly, completely jealous from your McDonalds.

Meanwhile I sit here eating chocolate and sipping water, yet to eat dinner because I am too lazy to go out and spend money on groceries..

You're living the life.

(Dexter is fantastic tho)

Got it in 2010/2011 when I bought my desktop. Got a new PC about a year ago but still just used the same main monitor. Just bought a new hp monitor for my right screen a week ago. It's a W2082a, whatever that means.

You're at least able to eat chocolate. I can't have chocolate because when I do, I get about 20 pimples on my face, even me being 21 years old. Yeah, Dexter is really good. This is my second time watching the series. Hadn't seen it since Sept. of 2013 when it ended.

Bluffer - November 3, 2016, 11:07 pm

Dexter is an amazing show! Have you watched it before?

Yep. This is my first time rewatching it since 2013 when the series ended.

Second time? I normally haven't been real big into the whole "watch it again" thing for TV Shows. However, recently I went through and rewatched Breaking Bad so maybe I could give it a try for Dexter. I just remember the ending.. I don't want to go through that again shivers

I have a thousand pimples regardless so 20 more wouldn't hurt ;)

I've watched Breaking Bad three times now. Really good show as well. I'll probably end up rewatching Prison Break again next.

you should buy yourself a real monitor instead of that shitty HP. Maybe a stand to go along with it so when that cam box caves in it doesn't tip and land on your precious cancer food. The BenQ is the only nice thing i see.

Too bad you can't find a stand that doesn't take up half of the desk space. Also, I don't buy things that aren't necessary. My main monitor works perfectly fine and still brings in a quality picture. No need to upgrade it. I just upgraded my right monitor though because the one I was using before was a Dell monitor from 2001.

McDonald's is actually disgusting.

Anyone who eats it deserves to be hung tbh.
