Profile link: [Phantom](#)

I should have posted this community alert one month ago, but then Phantom disappeared. He self-banned himself so it would not make such a difference if I posted it or not. Aforementioned this does not change the fact this is a legit CA even though everything happened one month ago.

I don't want this thread to be that long, so I will try to keep it short and then respond to questions bellow.

The 29th of September.

It all began with Phantom playing the victim telling me he needed to pay someone back or he would be in trouble. Here is the full convo:

Spoiler [\(Click to View\)](#)

Now here comes the crazy part. He called me and fake cried IN OUR CALL to convince me, sending him the funds.. In this next screenshot you can see that we were in a call and I sent him the \$50 he was begging for.

Spoiler [\(Click to View\)](#)

--> [Proof of transaction](#) <--

Here in the next screenshots you can see that he admits what he have done and he regret it.

Full screenshot: Spoiler [\(Click to View\)](#)

Here are some more conversations of him talking to me and Max P, so you can clearly see what kind of person he is.

Spoiler [\(Click to View\)](#)

There are many people here on the forum that can confirm this is indeed his Skype account. He just sent me private messages yesterday and today and told me he wanted to sort everything out. Then he told me I could open this CA which I am doing right now.

Yes, I social engineered you out of \$50 on Skype.

You haven't even bothered to read the messages I sent you on my current Skype.

Proof of my current funds waiting to pay you back:

Edit: He just tried to say I owe him \$200! ?

With the proof he provided it goes off of the current exchange rate of BTC.

So at the time it was \$50, and right now it is \$200. So since he won't just take the \$50 I guess he is waiting till it drops to \$50.
