[SQLMap] Is it possible to deface a website with sqlmap?

- Thank you

awiley - November 5, 2016, 1:28 pm

ahahahahahahahaha

learn the world you're operating on before executing functions within the environment

I would suggest you get to google what sqlmap is and what is a database and then you'll answer yourself :)

M3LT - November 5, 2016, 11:48 pm

sqlmap isnt built for such illegal tasks!! i will be contacting the fbi over your malicious intentions.

iUnkn0wnV - November 6, 2016, 6:34 am

Not a big surprise for me to understand you got bad reputations at your account M3LT, awiley

Ray Palmer - November 6, 2016, 11:04 am

Please google what is sqlmap and what it does

iUnkn0wnV - November 6, 2016, 11:34 am

I know what it does, i just want to know extras

sossa - November 6, 2016, 6:11 pm

you can lol. you can add a shell with sqlmap but you need the current user to be root, and the dir of the application, i forgot so yeah.

CyberRainbow - November 18, 2016, 8:08 am

delete sys32 and everything gonna be able to you

Great contribution ?

Anyway the simple answer to this is actually no.

SQLMap it self is being a tool for the sql injection, so possibly it would also be able to upload a shell since it can guess the information, i may not know.

But it is my own responsibility, sqlmap it self can be illegal used so pls no
