Thread: [HackForums.im \(XMPP\) SSL Certificate Expired](#)

HFTetramorph - November 5, 2016, 5:37 pm

Just noticed that I am getting an error for the XMPP server connection, in which I am unable to connect because of an invalid certificate.

The certificate appears to have expired on the 30th.

Don't know if this is some odd configuration error or legitimately a certification error.

I'm getting this as well.

ThomasGB - November 6, 2016, 5:06 am

Finally someone reported it

thanks for that :)

Omniscient - November 6, 2016, 11:00 pm

Someone could have told me before this. I'll try to get it resolved tomorrow.

EDIT: Ordered a 3 year cert. Should have it tomorrow and I can install it right away.

Omniscient - November 7, 2016, 11:03 am

This is now fixed. Thanks.
