Thread: [Free Dstats for any user.](#)

Mubu. - November 5, 2016, 8:36 pm

Hey, First off id like to say this is Strictly non profitable.

I have a 10Gb feralhosting.com server i use strictly to dstat that i renew monthly.

Also i have a 10Gb / 20Gb and 40Gb graph from dstat.us that i intend to renew monthly also.

However recommend you to check them out if you like the results, I am NOT doing this for ANY sort of payment as i am not related to there services.

This is for education purpose only and the ones who purely cant afford a 1 month payments just to do a few tests, I will do this for anyone if i am available.

So feel free to hit me up an ill run a dstat for you on the graph or server whatever suits you.

(upgraded members will be prioritized before non upgraded)

Just trying to give back to the community ?
