Muggsy - November 6, 2016, 11:44 am

Yes, sadly it does mean you are gay.

Stashyy - November 6, 2016, 11:44 am

ye it runs in the family, you might be gay too. If not your son will be gay.

AlphaIndustries - November 6, 2016, 11:45 am

Do you have eyes opened or closed when you do it together? /:

asvps - November 6, 2016, 12:00 pm

Yes, it does mean your gay as well! You should feel the symptoms of being gay really soon however, you can stop this by cuddling with your brother!

Mons - November 6, 2016, 12:02 pm

Not necessarily, but there's a chance.

SIM-3257834 - November 6, 2016, 12:03 pm

Only way to find out is to fuck your brother and see if you enjoy it. If you did then you're gay.

Raddify - November 6, 2016, 12:04 pm

you will be the opp gender then you think you think you are

Blade - November 6, 2016, 12:05 pm

You are gay OP, get used to it.
Enjoy KEK

shooky - November 6, 2016, 12:07 pm

It's official you're gay now. Can someone give this man the Dancing Queen award already?

Inked ?Feather - November 6, 2016, 12:08 pm

i knew that it would be you.

it's nice to see that your reputation is getting to green with whatever you're doing here

i would close my eyes. but sometimes he would ask me to sit on his lap.

lucky. - November 6, 2016, 12:16 pm

Yes, posting this thread is confirmation of your incredible homosexuality. It is likely your older brother did the same when he was your age, now you are continuing on the tradition.

hydronic - November 6, 2016, 1:09 pm

Dude it's not genetic it's a very small chance you are gay too..

b?xxy - November 6, 2016, 1:10 pm

No.

He might have an influence either way but there's no direct correlation.

Valdiux - November 6, 2016, 1:26 pm

You can't really say if you going to be gay. You are born gay, you can't become gay.
So you have to find out yourself. Good luck on your adventure bro!

Mouse? - November 6, 2016, 1:28 pm

Unfortunately that's not how faggotry works.

Do you have a huge unbearable desire for dick and find a guy attractive? If not, congratulations, you're not gay. If so, congratulations, you're gay, and it's probably not related.

TheWolf™ - November 6, 2016, 1:30 pm

Yeah no I think your in the Illuminati, but 100% gay.
No questions, asked.

?now - November 6, 2016, 1:32 pm

I am sorry to say but you are gay

RottenTomatoes - November 6, 2016, 1:44 pm

well i was talking to my bro about this a few mins ago. i asked him if he thought i was gay. he said its up to me to figure out, but that i had a cute feminine butt and would look good as a gay.... :/

Gay_ - March 17, 2018, 5:48 pm

I would not say it runs in the family. My older brother is straight, but I'm gay.

JoshAllen - March 17, 2018, 5:56 pm

It must be a family thing man. Is your father or mother gay??

are you hearing what you just said? xD

father and mother? Hmmm...

test - March 17, 2018, 6:01 pm

Yes it's a genetic thing. You might as well come out now.

Learner101 - March 17, 2018, 6:02 pm

100% salami smuggler.. Take a look on ancestry for an ugly great, great, great grandma and you can see where the problem started :D

RedCupcake - March 17, 2018, 6:05 pm

I don't think that's how it works

spradebassen - March 17, 2018, 6:08 pm

why are you afraid of being gay

Ninja - March 17, 2018, 6:39 pm

This thread is very old but I'm sure you can answer that yourself OP.

Riot - March 17, 2018, 6:40 pm

Doesn't quite work like that. My mom recently asked my brother if I was gay not too long ago because I haven't been in a relationship in ages. Like wtf lol.

WRX - March 17, 2018, 6:45 pm

50% of your mom's genes came from a man so technically your dad is half gay which anything over 0% gay is full gay. If your older brother is gay you are gonna be gay too.

Theocritus - March 18, 2018, 1:05 am

might jump a generation so your son will be gay instead

Did you search all threads with gay in the title?

This was made in 2016.

CYB3RM4N - March 18, 2018, 2:29 am

That's not how this works.

Mr Meeseeks - March 19, 2018, 8:50 am

It may be because your mom has the big gay.

deadsh0t - March 19, 2018, 8:55 am

try jerking off to gay porn if you cum you are gay. you can fuck your brother i mean hes gay so if you cum again you are also gay

monkaS - March 7, 2019, 11:10 pm

Yup, you are definitively gay.
