Thread: [Where to get symbols to use here \(emoji updated with list\)](#)

Prof. Farnsworth - November 7, 2016, 11:52 am

I just saw that some users have emojis in their names so I thought I'd post here how to get those.

Just head [here](#) and you can easily copy paste them.

Quick edit, forgot to say that not all of them work.

EDIT: Here are all the emojis that work:
