I would love one thank you so much brother!

Why do people make these threads? Demonoid has been open for registration since 2015.

Furthermore an account is not even needed to download torrents anymore. (you only need an account if you want to upload torrents)

Maybe people want to upload or they want an account for other reasons. Why does this bother you?

Demonoid is a public tracker. I can confirm this. Regardless, there's some where you need an account to download. BTN, PTP, AHD, HDB, BHD, GFT, SCC, etc.

Broadcasthenet, passthepopcorn, awesome-hd, hdbits, beyondhd, thegft, sceneaccess. There's quite a few more.
