With Zephyr Downloader, using any kind Crypter is FULLY optional!

The output is small and Runtime/Scantime UD!
Updates are provided in order to keep it this way.

[*] What is a Downloader ?[*]

Downloader is a tiny and handy tool that lets you silently download and execute any file(s) on PC, without the person even noticing it!

[*]Why should i use it ?[*]

Is your RAT/Bot stub is too big?

Do you want to keep it light-weight and silent?

Do you want your main Executable to last longer undetected?

Do you want to prevent your main Executable from immediately being analysed and distributed by antiviruses in the cloud or anywhere else?

If so , Zephyr Downloader is here for you!
