Not from the reset. Selling this to buy another tag.

Would like to sell it quick, I will only tell you the tag if I deem you trustworthy.

Nice tag, I am the 2nd owner to it. First owner had it on a silver for 4-5 years.

Vegeta - November 11, 2016, 3:22 pm

Need the money, I'm still selling.

Vegeta - November 12, 2016, 7:38 pm

I don't understand, what is so special about this gamertag? There are 200+ billion possible 8 letter gamertags. You really should include some sort of info about it.

It's not random 8 letters, thought that was pretty clear.

Still for sale.

Yeah but you have absolutely zero information about the tag other than it's 8 characters, why would anyone be interested enough to PM you if you don't even give a hint as to what it could be?

HMU if you ever accept PayPal.

Side Note: to everyone above it's a pretty nice tag tbh

I am interested in what this gamertag is. If I like it I would be more likely to purchase it.
