Thread: [\[FREE\] - Unlocking Coursehero.com documents upon request](#)

ddosfun - November 8, 2016, 8:33 pm

What is Coursehero?

Coursehero is an educational service priced at \$39.95/mo and has the material that you are looking for to make you gain knowledge or pass a specific test when time is limited (most actual exams/practicals/summarys and answer sheets are listed).

I Will not be selling documents yet, the buying documents option above can therefore be ignored first.

This is done in order to decide if a profit generating market can be reached. You can however request an unlock.

I will try to respond to your url request within 24 hours & provide you with your requested document.

Sorry mate, it only helps you provide test material and answers from courses, cases assignments and books that have been used in the past and that were added to the site.

If you are looking to obtain free certificates (from programming or we) you could use Udemy (warez disallowed), but you should select some quality stuff before putting it on your CV.

Vouch. Got back to me quickly with my document. Much thanks

Armady1 - *November 15, 2016, 3:56 pm*

posting here since I might use this service later

Sure, just contact me when you need it :)

I won't limit the free documents to one per person

ddosfun - *November 28, 2016, 11:19 am*

service is still running :)

ddosfun - *January 11, 2017, 3:36 pm*

Still running this free service for people if interested
