Thread: [Made 505 profit betting on Trump winning](#)

Scar?face - November 9, 2016, 12:23 pm

Placed 4 bets on Trump in total with a combined stake of £146 and cashed out slightly early so I could just withdraw my funds and go to bed (would have got £35 more profit if I waited but eh) - Return when I cashed out was a total of £651.21, which makes £505.21 profit from my £146 stake, making this the most profitable day of my life so far haha.

Wanted to bet 250€ on him, I KNEW HE WOULD WIN, I knew it. But I hadn't the balls to do it. :(Would have won 900€.

Muggsy - November 9, 2016, 1:49 pm

Don't say Donald Trump never helped you out financially. Lol.

Scar?face - November 9, 2016, 2:10 pm

Thanks everyone. Decided to put £10 of the profits into my steam account and max out the Trump badge to level 5 on the "Make America Great Again: The Trump Presidency" game on there and when levelling it up to level 2 I got the very rare :GodEmperorTrump: emoticon which costs £18.80 on steam market as of right now lmao.

Got some more drops (such as this background) on the way to leveling it up to 5 so re-did my steam profile as a full Trump profile.

Lmao same, I heard this has been the biggest election ever for people putting bets on it, I heard there were multiple wealthy people who placed 6 figure bets on her. Heard about a day or two before the election though about a gambler in the UK who put £200,000 on Trump, based on how Trump's odds were at that time the dude would have profited between £600-800,000 depending on where he placed the bet and at what point of the day.

I used bet365 to place my bet, it's where I do most of my gambling and they had pretty good odds so it worked well for me haha.

At 4/1 you'd profit 4k.

Well my two biggest bets were at 5.5 and 5.0, so I would have profited around £4250 if I put 1k on, did all I could afford though unfortunately, wanted to do more especially when I saw his odds go up to 7.5 at one point I wanted to throw on £100 more for £650 more profit but just couldn't risk going completely broke in one night.
