What the fuck is this aids. Why does this shit video have 43 likes?

It's some Turkish swaggot with a fucking iphone in a goddamn wind tunnel calling some shitfuck number and doing absolutely nothing for like 6 minutes until someone finally picks up and presses one button on a fucking soundboard.

0/10 for originality.

0/10 for the fucking ear rape I had to endure.

0/10 for fucking content which basically consisted of sitting there like a dull chicken for 5 minutes and one random clown laugh at the end.

Stop making vids wtf.

Oh wow I sure hope I don't fucking skype call some random fucking number where someone picks up and does one shitty line on a soundboard and then backtracks my IP finds out where I live comes to my house with a clown mask on and murders me.

edit:

Shit guys, I just did it and they're here.

edit:

Nvm, was just my mom unpacking fucking groceries.
