Done.

Soldier of Fortune - February 28, 2009, 12:47 am

Please, post some screenshots or at least some details about it, why is it FUD and blah blah...

Leeky - February 28, 2009, 12:48 am

Because Stealth_Eclipse said it was FUD :P It's an online one, popular, and it's only a PM away

Strife - February 28, 2009, 12:55 am

3mr4n - February 28, 2009, 1:19 am

i hate FUCKING AVG it finds everything :(

Strife - February 28, 2009, 1:26 am

yeah lol i hope the AVG's programmers die in a painful way.

Goku - February 28, 2009, 1:35 am

i hope avg makes a batchfile that ultimately deletes your face. or wait, i hope avg just starts writing junk codes, so that every hacker on the planet can wipe out your computer :D gotta love AVG :P

stealth_eclipse - February 28, 2009, 9:02 pm

To bad I have already posted this if you looked at the my post. Please take the link down and keep giving out by pm's. After I posted it on the site last time it took 4 day's for it to be detected out of a week i used before i posted it. I know your trying to help out link I was but try and keep it from people who just cruise the boards to just get free downloads.

Leeky - February 28, 2009, 9:05 pm

Sure, I just didn't like how I got 7 downloads in 10 minutes. I think I'll just change it to email/MSN now

stealth_eclipse - February 28, 2009, 9:58 pm

Just pick the people out who should be using it. I get ton's of pm's everyday for software i post. But if your going to post something good like that you have to be willing to put up with some pm's is how i look at it. If someone pm's you with 5 post's just delete it. Thats what I do. If your not goin to be a vaild part of this forum then you shouldn't be using and abusing program's that we are using....

Just my 2 cent's

Emma - March 2, 2009, 9:46 am

Could anyone PM me the link to the site? I know my post count is low but I'm not that into hacking. What if I donated? o.o

HsiX - March 2, 2009, 9:47 am

MC' - March 2, 2009, 10:09 am

hot_noob - March 2, 2009, 5:24 pm

stealth_eclipse, this link are posted in a lot of forums (you could search in google if you want ...) so i don't know if posting it in this forum would change something.

Taserz - March 2, 2009, 8:03 pm

can you privet message me

Leeky - March 2, 2009, 9:34 pm

Oh yeah sure. I'll be the one looking in THIS thread, doing all the work for YOU. Just because YOU are too fucking lazy to

- 1)Search for it yourself
- 2)PM me

Ya that's true and that's how I found it. But see the people who really need it or want it probably already have it or know where to find it. Making people pm if they really need it keeps the people who come here to just get free shit from using it. Apparently you haven't been payin to much attention....

When the link was posted it started to get detected by all AV's very fast. Before it was ever posted here it took awhile before it even got detected by one. Making people pm is just like a retard filter

Alucard_Jh - March 4, 2009, 8:31 pm

Thanks, I just got some crypter from JapaBrz but I'll probably run some online tests with random viruses and see which is better. JapaBrz's is newer but we'll see

IxMoNsteRxl - March 4, 2009, 9:19 pm
