Thread: [Is post/bump/delete strictly a marketplace rule?](#)

VirtualFrost - November 10, 2016, 12:12 pm

I notice someone outside of the marketplace/money section doing this. Is it allowed?

I'm pretty sure it's not allowed.

I was told we were allowed to bump after 24hrs, kinda curious how as I bumped my Keybase invite thread earlier

I believe you can't bump with a LQP post such as "bumping this" either, just thought I'd let you know.

If it would only be for the marketplace, it would most likely say so.

Post/bump/delete isn't allowed anywhere. If the content isn't getting the replies you thought it would, a "bump" from you won't make it more interesting.
