Thread: [\[The Order\] Bustabit Script | Made 400k bits w/ it | NOT Martingale](#)

TheChi?f - November 11, 2016, 5:58 am

I've a Bustabit.com script which I used a couple of months ago which made me a good amount of bits, although no script is unbeatable.

This script doesn't use martingale and is good for using during red trains as well.

I'd not at all recommend leaving it. I'd recommend you watch the script as it comes and allow some breaks incase a huge red train comes and you dont have enough balance.

It started working good I was using the method that was given to me and when I thought the rape train would start id change my multiplier to 1.33 not 1.5 and it is an easy come back I turned -14k bits into +4k bits if you don't get hit with heaps under 1.5 and 1.33 you'll be good! but it's gambling, just keep that in mind! but thank you very much for this method thechief! I'm glad I'm finally in the positives!!

Been using the Recovery mode for about three hours with the base bet and multiplier lowered a bit.

<http://prnt.sc/di9a1v>

^ That's actually the most times I've lost (5 times in 86 games) in the past three hours. Pretty impressive. ;o

My highest losing streak was 4 games. Wouldn't recommend betting more than 1% of what you have so that you can still recover after a lot of losses.
